DOTmed Certified Steve Neffinger, VP at Med Exchange International, Inc.

Steve Neffinger is a vice president at Med Exchange International, Inc. Steve specializes in buying and selling top quality refurbished and pre-owned MRI machines, CT scanners, PET, X-ray equipment, C-Arms, Ultrasound Systems, Mammography Bone Densitometers and Injectors. "We have been purchasing directly from hospitals and imaging centers for the past 16 years and have a great reputation with diagnostic equipment," says Neffinger.

Med Exchange International, Inc. is a source for top quality pre-owned imaging equipment serving private clinics, imaging centers and hospitals with installations throughout the world including China, Eastern Europe, India and South America. "DOTmed has proven to be a valuable vehicle within our marketing plan to expand our customer base. Our goal is to create trusted relationships and partnerships to provide the best service possible and DOTmed has definitely helped us in this regard."

"We have been in business since 1991 and we have extensive experience in buying and selling. We try to offer top dollar for equipment and we are committed to meeting crucial deadlines," explains Neffinger. "We will be happy to provide a competitive quote in an effort to create a complete cost effective solution." Med Exchange International, Inc. has whatever product you need, including brand names like GE, Siemens, Philips, Toshiba, Hitachi, OEC, Lorad, Medrad and all ultrasound manufacturers. They will help you find a quality, cost effective solution to your purchasing or selling needs. Call today - 800-338-1287 for more information. Med Exchange is conveniently located on both US coasts, headquartered in Massachusetts and in San Diego, CA.
